In 1890 they had increased to \$412

—New York Press.

NO ONE FOR IT.

Washington Post.—The most pathetic case of the shadow of office-seeking the man is presented by the Ohio Democratic gubernatorial nomination.

A GOOD EXAMPLE.

Binghamton Republican.—It would be a benefit to American society if the social lions would take a cue occasionally from the Court of Madrid, instead of carrying the stupid stiff neck of St. James.

ICONOCLASTIC.

St. Louis Globe-Democrat.—Colonel Waterson declares that the mission of the Democratic party is to conserve, but to destroy. "Very true," but the trouble is that it always wants to destroy the wrong things.

A BIG BOMB.

Chicago Inter Ocean.—If the Presbyterian Church declares Dr. Briggs "a heretic" a bomb will have to be built in every Presbyterian library in the land. No man in the church is more largely represented in literature than Dr. Briggs.

WHEN USEFUL.

Rochester Democrat and Chronicle.—The so called "financial policy" of the Administration has certainly caused a sufficient number of wrecks in the business world to impress people. As a "ruler" President Cleveland is most useful when he is away fishing.

WHAT IT MEANS.

Boston Journal.—It is significant how regularly the imposition of duties on sugar and coffee appears in every new version of the Administration's programme. Sugar and coffee duties would not only be fatally unpopular things of themselves, but they would mean the immediate abandonment of reciprocity.

WHY HEADMAN MAXWELL CHUCKLES.

New York Tribune.—It is the policy of the Cleveland Administration, according to the Mugwump press, to make removals from the fourth-class Postoffice only when charges against the incumbents are sustained. When Maxwell chuckles it is that he will lean on the handle of his axe long enough to launch a long, low laugh, the sort of laugh commonly known as a chuckle.

"SOULLESS" CORPORATION.

Every man, woman and child in the Pennsylvania Railroad Company's employ, it matters not in what capacity, will be allowed a two weeks vacation and transportation to the World's Fair at Chicago. Nor will the magnanimous work stop there. Every employee having a family will be allowed the courtesies of the company, every member being furnished with a round-trip ticket.

A BURNING QUESTION.

Boston Journal.—Senator Lodge is being much praised by some of our Democratic contemporaries for the earnestness with which he is promoting the movement for the repeal of the Silver Purchase act. A few months hence, when the fight in Congress is on earnest, it is ten to one that these same newspapers will be accusing Mr. Lodge of "embarrassing the Administration." The silver question is a hot one for the Democracy to touch.

IT WASN'T SHEPHERD.

Philadelphia Ledger.—The Western and Southern states are suffering from bank troubles that tend to lock money up when it is most needed. The representatives of those sections in Congress are largely responsible for the present hurry, and ought to be prepared by this time to vote for the repeal of the Silver Purchase act before further trouble comes upon them. They were given abundant warning of what would happen, but, like most theorists, required a little personal experience before they could be convinced that it properly required. Unlucky laws could not be repealed by act of Congress.

THE FINANCIAL ISSUE.

Governor McKinley's Speech of Acceptance.—The pledge of the Republican party that gold and silver shall be maintained at parity the one with the other must be secretly kept. The Government must not suffer any taint to be put upon its credit or financial honor. It can prevent it. Republican legislation vests it with full power. The Administration should use it promptly as required. Uncertainty of the financial policy of the Government breeds distrust in the minds of the people. The word of confidence and courage born of purpose is the need of the hour and should no longer remain unspoken.

This is the second time in the past four days, the other being Little Harry Boone, who lost his life within half a mile of where this court happened, and both horses were recovered by Alex Rice, a trainer at Marchmont Stables.

He once ran the creek, and, dressing, roved a mile down stream to Marchmont Stable, where he found Messrs. Alex Rice, Doug Thomas and James Hukill, and the driver returned to where the accident occurred, and Mr. Rice drove and found the body.

It was evident that Mr. Brent had drowned from cramps, as the body was badly cramped. He was a young man of 20 years, of excellent habits, and, besides being a No. 1 business man, was one of the most popular society gentlemen of the county. He was a brother of the late John C. Brent, Cashier of the Citizens' Bank, who died last summer.

MR. CLEVELAND says the financial condition is "the only menace to the country's welfare and prosperity." Well, Uncle GROVER, isn't that enough? What will it profit a poor devil if he has his mouth full of wind and not a nickel to put bread in his stomach? Money makes the mare go, and when the money gives out the old nag dies.

What will it profit a poor devil if he has his mouth full of wind and not a nickel to put bread in his stomach? Money makes the mare go, and when the money gives out the old nag dies.

A Boat Capsizes in a Storm at Buffalo, N. Y.

And a Party of Fishing Excursionists Go to the Bottom.

A Dozen Persons Witness the Accident From the Shore, But Could Render No Assistance—A Woman and a Child Found Dead in a Creek Near the Breakwater.

BUFFALO, June 13.—A severe wind and rain storm struck Buffalo Sunday. Five lives were lost and considerable damage was done. The wind blew down telegraph wires and trees, and damaged a number of buildings, and the piled-up waters drove out several families living on the beach. A dozen fishermen's shanties are now floating in the lake near the breakwater.

When the wind was strongest, Wm. Healy, Charles Seymour and Bert Christian hired a rowboat and started out from the foot of Georgia street on a fishing excursion. The boat was rowed half way across the river, when the wind turned it around and it filled. Christian jumped overboard and started to swim for the shore, but the other remained in the boat until it sank. A dozen persons witnessed the accident from the shore, but as there was no light within half a mile all three were drowned.

Late Sunday afternoon a capsized boat and the body of a woman and child were found in Senecaquaga creek. The bodies were taken to the morgue, but have not been identified. They had been in the water only a few hours. Many trains are late on account of the storm.
